CAREER PROFILE

UI/UX Designer with an MCA and hands-on experience in end-to-end product design, including branding, responsive websites, and mobile applications. Skilled in user flows, wireframes, high-fidelity interfaces, WordPress development, and promotional design. Also experienced in supporting product growth through SEO, Meta Ads, and campaign creatives. Focused on creating intuitive, visually consistent, and user-centred digital experiences.

PROFESSIONAL EXPERIENCE

UI/UX Designer, HapiApps Software Lab

Oct 2025 – Present
Tuticorin, India.

- Independently designed the **Kadaigal platform end-to-end**, including its logo, brand identity, website, mobile application, and promotional posters. The platform is currently in the development and testing phase.
- Designed the complete UI/UX and responsive websites for **anpace.com** and **aruu.in**, including wireframes and high-fidelity interfaces.
- Improved usability, visual hierarchy, and responsiveness to create seamless experiences across desktop and mobile devices.
- Designed and developed multiple **WordPress websites**, including layout customization, content integration, and mobile optimization.
- Planned and executed **Meta Ads campaigns** across Facebook and Instagram to improve reach and engagement.
- Designed promotional posters for **anPace**, along with banners, brochures, and digital and print creatives while maintaining brand consistency.
